ABOUT

BANAYI INTERNATIONAL EDUCATION CONSULTANCY LLP

At Banayi Edu, we are dedicated to guiding and supporting students in India to achieve their educational goals through a high-quality education at one of the world's best government universities. As a renowned educational consultancy, we offer complete support and individualized services to students at every stage of their academic careers. We work with a team of expert counsellor and advisors to provide quality services and support academic success.

Our goal at Banayi edu is to bridge the gap between students and their educational dreams by offering expert guidance, resources, and support. We aim to assist students in making informed decisions about their academic and career paths, enabling them to unlock their full potential and pursue opportunities that align with their interests and ambitions. Through our personalized approach and dedication to student success, we aspire to become the trusted partner for students seeking educational guidance and assistance in India.

The healthcare industry has long been considered the most exceptional and honourable in Indian society. India's youth have long been drawn to a career in medicine and health sciences, or MBBS, because doctors are highly esteemed professionals. But these days, more students than ever before are enrolling in MBBS programs overseas. This is due to factors like excellent educational standards, reasonably priced tuition, top-notch facilities, international recognition, a multicultural environment, English-medium programs, clinical exposure, and research opportunities.

WHY MBBS IN RUSSIA & ABROAD

- Endorsed by WHO, NMC, and WDOMS
- Accredited and respected medical degree
- Optimal Instructional Strategies
- A welcoming atmosphere for students from India
- Low fees and no entrance exam
- No donation or capitation fees
- European Standard Education and Visa Guaranteed.
- Secure and safe on-campus housing
- Cost-effective budget in comparison to Excellent training in medicine
- A university with international recognition
- Competent faculties
- Reasonably low cost of living
- Modern medicine and hands-on instruction
- Good global employment opportunities

ELIGIBILITY

- Minimum of 50% aggregate in PCB is mandatory for general category students
- Minimum of 40% aggregate in PCB is mandatory for reserved category students (SC/ST/OBC)
- NEET with Qualifying marks
- The student should have completed his/her 17 years before 31st Dec
- The student should be mentally & physically fit & should have a fitness medical certificate from a recognized hospital
- Neet result is valid for 3 years from 2018 onwards

DOCUMENTS REQUIRED

- Marksheets of 10th and 12th grades
- 25 passport size photos
- Transfer certificate / School leaving certificate
- Passport
- Migration certificates
- Birth Certificate
- PAN Card of the student and parent
- Aadhar card
- Bank account of the student and parent
- Student Visa

CONSULTANCY PROVIDES

- No-cost individual counselling sessions
- Support for the enrollment procedure
- Entrance to Russia's top universities
- Seat reservation at the correct university
- Complete Support for Documentation
- Counselling Before and After Departure
- Complete assistance in obtaining health insurance
- Accommodation setup

Medical student life in Russia combines strict academic training with affordable living and diverse international exposure. Students spend long hours in classes and clinical practice, supported by modern infrastructure and experienced faculty. Hostels and transport are reasonably priced, and campuses host students from many countries, creating a friendly multicultural environment. Despite cold winters, students enjoy cultural experiences and social activities. With over 650 state universities and about 1,65,000 foreign students from more than 200 nations, Russia remains a popular education destination, offering comfortable living conditions and helpful local people. Overall, pursuing medicine in Russia is both challenging and rewarding for international students, including those from India.

Russia

Russia has a rich and varied cultural past that has been shaped by its large territory and long history. Russian visual arts, dance, music, theatre, and literature have all had a major influence on global culture. Russia's history is diverse, spanning more than a thousand years and featuring eras of both cultural exchange and expansion. Emerging in the 16th century, the Russian Empire grew quickly and eventually ranked among the greatest empires in history.

Russia has an abundance of natural resources, such as coal, oil, gas, minerals, freshwater, and timber. It is a major player in the global energy industry and one of the top producers and exporters of natural gas and oil worldwide. With a land area that spans two continents (Europe and Asia) and eleven time zones, Russia is the largest nation on Earth. It shares borders with fourteen nations, including Finland, China, Mongolia, Kazakhstan, and Ukraine. Plains, mountains, forests, tundra, and a vast coastline around the Arctic, Baltic, Black, and Pacific oceans are all features of Russia's varied topography. Russia is a well-liked choice for Indian students looking to pursue medical education overseas because of its reasonably priced tuition, excellent educational programme, and globally recognized degrees. Indians and other foreign students can enrol in English-medium programmes offered by Russian medical universities. Russia and India share a long-standing history of diplomatic, economic, and cultural ties. The relationship between the two countries is characterised by mutual respect, trust, and cooperation across various sectors, including defence, trade, energy, and education. Both countries are strategic partners and collaborate closely on regional and global issues, including counter-terrorism, regional stability, and multilateral forums such as BRICS and the Shanghai Cooperation Organisation (SCO).

MEDICAL EDUCATION IN RUSSIA

Medical education in Russia offers a comprehensive curriculum with a strong emphasis on practical experience. Programs typically span 6 years for general medicine and dentistry, and 5 years for pharmacy, combining theoretical courses, practical training, and clinical rotations. Admission is competitive, requiring strong grades in science subjects and passing entrance exams. The curriculum covers various medical sciences, clinical skills, and research methodologies. Practical training through clinical rotations begins early in the program.

While programs are offered in English, proficiency in Russian may be required for clinical practice. After graduation, students undergo mandatory internships followed by residency programs for specialization. Russian medical degrees are widely recognized internationally by organizations like WHO and NMC, facilitating global practice and further education opportunities.

Medical student life in Georgia for international/MBBS students offers a well-balanced experience combining quality academics, multicultural exposure, and affordable living. Medical universities in Georgia provide English-medium MD/MBBS programs, so language is not a barrier in classrooms. The curriculum is well structured, beginning with pre-clinical years focused on theory and laboratory work, followed by clinical rotations in affiliated government and private hospitals. Students are also taught basic Georgian to help communicate with patients during clinical years, and admissions are mostly document-based without tough entrance exams like the MCAT. Most students live in university hostels or nearby private apartments, and monthly living costs are significantly lower than in many European countries. Public transport, especially in cities like Tbilisi, is reliable and inexpensive. Campuses are highly multicultural, hosting students from over 40 countries, with active cultural events, sports, fitness facilities, and student clubs. Strong Indian student communities help newcomers adjust easily. Although winters can be cold, hostels and classrooms are well heated, and students enjoy a vibrant lifestyle with cafés, museums, nightlife, and weekend travel to destinations like Gudauri, Bakuriani, and Mestia. Clinical exposure is strong due to diverse patient populations, and universities follow European medical education standards recognized globally. Overall, medical student life in Georgia is academically focused yet relatively less stressful, safe, student-friendly, and ideal for those seeking quality medical education at an affordable cost.

GEORGIA

Georgia is a small but culturally rich country located at the crossroads of Eastern Europe and Western Asia, bordered by Russia, Turkey, Armenia, Azerbaijan, and the Black Sea. Its capital, Tbilisi, is the political, educational, and cultural hub of the country. Georgia is known for its long history, ancient Christian heritage, scenic landscapes, and warm hospitality. The official language is Georgian, while English is widely used in universities, tourism, and urban areas, especially among young people. Georgia has a developing economy with growing sectors such as education, tourism, healthcare, and services. The country follows many European standards, and Georgian degrees—especially in medicine—are recognized by major global bodies. The cost of living is affordable compared to most European nations, making it attractive for international students and professionals. Public transport is efficient and low-cost, and cities are generally safe with a low crime rate. The climate varies by region: cold winters in mountainous areas, mild winters in cities like Tbilisi, and pleasant coastal weather in Batumi. Georgia is famous for its mountains, vineyards, cuisine, music, and festivals. Popular destinations include Gudauri and Bakuriani (ski resorts), Batumi (Black Sea coast), and Kazbegi and Mestia (mountain tourism). Overall, Georgia is a safe, welcoming, and student-friendly country offering a European lifestyle at a reasonable cost, making it especially popular among international students, including those pursuing MBBS/MD programs. If you want, I can also share education system details, visa process, cost of living, or MBBS-specific information.

MEDICAL EDUCATION IN GEORGIA

Medical education in Georgia is well known for its high academic standards, international recognition, and affordability, making it a popular destination for international students, especially those pursuing MBBS/MD. Georgian medical universities follow European and international education standards, with programs taught entirely in English, eliminating language barriers for foreign students. The medical curriculum is structured into pre-clinical years (basic sciences and laboratory training) and clinical years (hands-on training in affiliated government and private hospitals). Students are also taught basic Georgian language to help communicate with patients during clinical practice. Admission to medical universities is generally simple and document-based, without entrance exams like MCAT. Medical degrees from Georgia are recognized by global bodies such as WHO and are accepted in many countries after clearing required licensing exams. With modern infrastructure, experienced faculty, diverse patient exposure, and an affordable cost of education and living, Georgia provides a student-friendly, practical, and globally relevant medical education system.

Medical student life in Uzbekistan for international/MBBS students is academically focused, affordable, and culturally enriching, making it a rapidly growing choice among students from India, Asia, and Africa. Medical universities offer English-medium MBBS programs with a structured curriculum that begins with pre-clinical subjects such as anatomy, physiology, and biochemistry, followed by clinical years with regular hospital rotations. Practical learning is strongly emphasized, and students gain early exposure to real patients in government hospitals. Basic Uzbek or Russian language training is provided to help with patient communication, and admissions are generally simple and document-based without tough entrance exams. Students usually live in university hostels or nearby rented apartments that are affordable, furnished, and safe, with facilities such as heating, Wi-Fi, and security. The overall cost of living is low compared to many European countries, and public transport is inexpensive and convenient. University campuses are highly multicultural, hosting students from many countries, with cultural programs, sports activities, and student clubs creating an active social environment. Strong Indian student communities help newcomers adjust quickly to both academic and daily life. Uzbekistan has hot summers and cold winters, but hostels and academic buildings are well heated. Students enjoy local cuisine, cafés, parks, and shopping areas, and often travel on weekends to historic cities like Samarkand, Bukhara, and Khiva, famous for their Silk Road heritage. Clinical training in government hospitals with a high patient flow provides diverse hands-on experience, helping students develop strong clinical skills and confidence. Overall, medical student life in Uzbekistan is disciplined, student-friendly, and career-oriented, making it an excellent option for those seeking quality medical education, strong clinical exposure, safety, and low living costs.

UZBEKISTAN

Uzbekistan is a Central Asian country rich in history, culture, and natural beauty, located along the ancient Silk Road and bordered by Kazakhstan, Kyrgyzstan, Tajikistan, Afghanistan, and Turkmenistan. Its capital city, Tashkent, is the political, educational, and economic center of the country. Uzbekistan is known for its historic cities such as Samarkand, Bukhara, and Khiva, which are famous for Islamic architecture, madrasas, and centuries-old traditions. The official language is Uzbek, while Russian and English are also commonly used, especially in education and urban areas. The country has a developing economy with strong growth in education, healthcare, tourism, and infrastructure. Uzbekistan is considered safe and welcoming, with a low cost of living compared to many countries, making it attractive for international students. It experiences hot summers and cold winters, but cities are well-equipped with modern facilities. Overall, Uzbekistan offers a blend of rich heritage, affordable living, and growing educational opportunities, especially for students pursuing higher education such as MBBS.

MEDICAL EDUCATION IN UZBEKISTAN

Medical education in Uzbekistan is well regarded for its strong academic foundation, practical clinical training, and affordability, making it an increasingly popular choice for international students, especially those pursuing MBBS. Medical universities in Uzbekistan follow international education standards and offer English-medium MBBS programs, ensuring easy academic adaptation for foreign students. The curriculum is structured into pre-clinical years focusing on basic medical sciences such as anatomy, physiology, and biochemistry, followed by clinical years with extensive hospital rotations. Universities emphasize hands-on learning, and students gain real-time experience in government hospitals with a high patient flow. Basic Uzbek or Russian language training is included to help students communicate effectively with patients. Medical degrees from Uzbekistan are recognized by global bodies such as NMC, WHO, and FAIMER, allowing graduates to pursue medical careers worldwide after clearing required licensing exams. With modern infrastructure, experienced faculty, simple admission procedures, and low tuition and living costs, Uzbekistan offers a student-friendly and career-oriented medical education system.

Strong Bond Between India & Kyrgyzstan

KYRGYZSTAN

Kyrgyzstan is a landlocked, mountainous country in Central Asia bordered by Kazakhstan, Uzbekistan, Tajikistan, and China. Its capital, Bishkek, is the main political, economic, and educational center. The country is known for its beautiful natural landscapes, including the Tian Shan mountains and Issyk-Kul Lake, as well as its rich nomadic culture and traditions. Kyrgyz and Russian are the official languages, with English increasingly used in universities and cities. Kyrgyzstan has a developing economy based on agriculture, mining, education, and tourism, and offers a safe, welcoming environment with a low cost of living. With cold winters, mild summers, and basic modern facilities, it provides a peaceful lifestyle and growing opportunities for international students, especially those pursuing MBBS and other professional courses.

MEDICAL EDUCATION IN KYRGYZSTAN

Medical education in Kyrgyzstan is widely recognized for its affordability, structured curriculum, and growing international acceptance, making it a popular choice among students pursuing MBBS abroad. Medical universities in Kyrgyzstan offer English-medium MBBS programs that follow international education standards. The curriculum is divided into pre-clinical years, focusing on basic medical sciences such as anatomy, physiology, and biochemistry, and clinical years, which include hands-on training and hospital rotations in affiliated government and private hospitals. Students receive basic Russian or Kyrgyz language training to support effective communication with patients during clinical practice. Medical degrees from Kyrgyzstan are recognized by global bodies such as WHO, NMC, and FAIMER, allowing graduates to pursue medical careers worldwide after clearing the required licensing exams. With experienced faculty, modern teaching facilities, simple admission procedures, and low tuition and living costs, Kyrgyzstan provides a student-friendly and cost-effective medical education system for international students.

Average Maximum Temperature: 30°C
Average Minimum Temperature: -10°C

Medical student life in Kazakhstan for international/MBBS students is academically structured, modern, and culturally diverse, making it an emerging destination for medical education. Medical universities offer English-medium MBBS programs that follow international standards, with a curriculum divided into pre-clinical years focusing on basic sciences and clinical years involving hands-on training in affiliated hospitals. Students receive practical exposure early, especially in government hospitals with a high patient flow, and basic Russian or Kazakh language training is provided to help with patient communication. Accommodation is available in university hostels or nearby apartments, which are affordable, safe, and well-equipped. The cost of living is reasonable compared to many European countries, and public transport is reliable and inexpensive. Campuses are multicultural, with students from many countries, active student clubs, and cultural events. Kazakhstan experiences cold winters and warm summers, but facilities are well heated and modern. Overall, medical student life in Kazakhstan is career-oriented, comfortable, and student-friendly, suitable for those seeking quality medical education with good clinical exposure at an affordable cost.

Strong Bond Between India & Kazakhstan

KAZAKHSTAN

Kazakhstan is the largest country in Central Asia and the ninth-largest in the world, bordered by Russia, China, Kyrgyzstan, Uzbekistan, and Turkmenistan, with a long coastline along the Caspian Sea. Its capital, Astana (formerly Nur-Sultan), is the political, economic, and cultural center, while Almaty serves as the largest city and commercial hub. Kazakhstan is known for its vast steppes, mountains, deserts, and natural resources, including oil, gas, and minerals, which drive its developing economy. The official languages are Kazakh and Russian, and English is increasingly used in education, business, and tourism. The country has a continental climate, with cold winters and hot summers, and offers modern infrastructure, transportation, and urban facilities. Kazakhstan is culturally diverse, with a rich history influenced by nomadic traditions, Silk Road heritage, and various ethnic communities. It is considered safe and welcoming, with a growing focus on higher education and professional opportunities, making it attractive for international students and professionals.

MEDICAL EDUCATION IN KAZAKHSTAN

Medical education in Kazakhstan is recognized for its quality, affordability, and international standards, making it an increasingly popular choice for international students pursuing MBBS. Medical universities in Kazakhstan offer English-medium MBBS programs that follow globally accepted curricula, divided into pre-clinical years covering basic medical sciences and clinical years involving hands-on training in affiliated hospitals. Students gain practical exposure early through clinical rotations in government and private hospitals, and basic Kazakh or Russian language training is provided to facilitate patient interaction. Degrees from Kazakh medical universities are recognized by international bodies such as WHO, NMC, and FAIMER, allowing graduates to practice medicine globally after passing required licensing exams. With modern infrastructure, experienced faculty, affordable tuition and living costs, and a student-friendly environment, Kazakhstan provides a cost-effective and career-oriented medical education for international students.

Armenia is a landlocked country in the South Caucasus region of Eurasia, bordered by Turkey, Georgia, Azerbaijan, and Iran, with Yerevan as its capital and largest city. Known as one of the world's oldest Christian nations, Armenia features mountainous landscapes, rivers, fertile valleys, ancient monasteries, and landmarks such as Khor Virap, Tatev Monastery, and Lake Sevan. The official language is Armenian, with Russian and English commonly used in education and business. Armenia has a developing economy with key sectors in IT, agriculture, tourism, and education, and a continental climate with hot summers and cold winters. The country boasts a rich culinary heritage, including dishes like khorovats, dolma, lavash, and renowned wines. With a high literacy rate, affordable living, and a safe, welcoming environment, Armenia is attractive for international students and professionals seeking education or cultural experiences.

Strong Bond Between India & Armenia

ARMENIA

Armenia is a landlocked country located in the South Caucasus region of Eurasia, bordered by Turkey to the west, Georgia to the north, Azerbaijan to the east, and Iran to the south. Its capital and largest city is Yerevan, which serves as the political, cultural, and economic center. Armenia is one of the world's oldest Christian nations, known for its ancient monasteries, churches, and historical landmarks, including Khor Virap, Tatev Monastery, and Lake Sevan. The official language is Armenian, while Russian and English are commonly used in education, business, and tourism. The country has a developing economy with key sectors such as agriculture, tourism, information technology, and education. Armenia experiences a continental climate with hot summers and cold winters, and it is known for its mountainous landscapes, rivers, fertile valleys, and rich culture. With a high literacy rate, safe environment, and low cost of living, Armenia is an attractive destination for international students and professionals.

MEDICAL EDUCATION IN ARMENIA

Medical education in Armenia is well-regarded for its quality, affordability, and international recognition, attracting many international students, particularly from India, the Middle East, and Africa. Armenian medical universities offer English-medium MBBS/MD programs that follow globally accepted curricula, making it accessible to foreign students. The medical program is structured into pre-clinical years, covering basic sciences such as anatomy, physiology, and biochemistry, followed by clinical years that include hands-on training and hospital rotations in affiliated government and private hospitals. Students also learn basic Armenian or Russian to communicate effectively with patients during clinical practice. Degrees from Armenian medical universities are recognized by international bodies such as WHO, NMC, and FAIMER, allowing graduates to practice medicine in many countries after passing licensing exams. With modern infrastructure, experienced faculty, affordable tuition and living costs, and a student-friendly environment, Armenia provides a practical and cost-effective medical education for international students.

ARMENIA

University Progress Medical University of Gyumri, Armenia, founded in 1990, has established itself as a leading institution for medical education in the region. Located in the historic city of Gyumri, the university has grown to become a renowned educational center, offering specialized programs in medicine, healthcare, and related fields. Its strong emphasis on quality education, practical training, and research has attracted students from Armenia and across the globe.

Progress Medical University of Gyumri provides a strong educational foundation for aspiring medical professionals, particularly through its MBBS program for and international exposure. The university's blend of theoretical education, practical experience, and international exposure makes it an excellent choice for students seeking to pursue a medical career in a supportive and globally recognized environment.

Why Choose PMU?

Comprehensive Education: Offers undergraduate and postgraduate programs in various medical disciplines.

International Recognition: Known for its high educational standards and global partnerships.

Experienced Faculty: A team of qualified and experienced professionals guiding students through practical and theoretical knowledge.

State-of-the-Art Facilities: Equipped with modern classrooms, labs, and simulation centers to enhance student learning.

Student-Centered Approach: Focuses on providing personalized learning and mentorship for each student.

Cultural Diversity: Attracts students from different countries, fostering a multicultural environment.

Clinical Practice Opportunities: Collaborates with hospitals and healthcare centers for hands-on clinical training.

FEEDBACK FROM PARENTS

**Mr. & Mrs. Shingare
Mangalwedha**

We sincerely appreciate the support and guidance we received from Banayi International Education Consultancy, which paved the way for our daughter's education in abroad. Initially, we were little bit doubtful regarding our daughter's admission; however, we learned about Banayi through a friend. After contacting them, we realized that our journey toward securing an education in abroad could be successfully completed in the right manner and on the right track only through Banayi International Education Consultancy. My daughter is currently pursuing her MBBS in Russia. I would like to congratulate the Director, Madam and also express my sincere thanks for her kind cooperation and assistance

When I, Dr. Sanjay Sarje, approached Mrs. Shinde madam, the Director of Banayi International Education Consultancy with my only daughter Shreya who had never before stepped out of the house alone, the way she guided and counseled us and convinced me to make the decision to pursue an admission MBBS abroad was mind-blowing. Throughout the entire admission process, she provided us guidance on every single detail.

Thanks to her precise and accurate guidance, my daughter is currently successfully pursuing her MBBS studies in Russia. I am deeply grateful for her cooperation.

**Dr. Sanjay Sarje,
Sangli**

**Mr. Vishnu Rajage
Balewadi, Sangli**

When I learned about Banayi International Education Consultancy through my relatives, I went to meet them. The guidance the team provided during that very first meeting, I decided to send my daughter payal abroad for her education. They provided me proper guidance throughout the entire process.

Not only did they guide us personally, but they also offered assistance online and over the phone whenever we needed it. They made a sincere effort to resolve almost all of our queries. I am deeply grateful to them for their cooperation.

I am Bhausaheb B. Waghmode from Jath. My daughter Bhoomi B. Waghmode has secured admission for BAMS. This happened due to the timely, correctly and great counselling of Banayi international Education consultancy, Sangli.

Mrs. Shinde madam provided good suggestions as well as timely help. She listened and solved all my questions about the process so well. She received my phone calls whenever I was in need throughout this lengthy process of admission. So, I am really thankful to Shinde madam and the whole Banayi Team. Thank you for your co-ordination

Mr. Bhausaheb B. Waghmode,
Jath-Sangli

Dr. Manjunth Kakhandaki.
Belgaum (Karnataka)

I truly appreciate your positive contributions & commitment to the parents. It shows in your wonderful services. Thank you for your support & proper way of working. I value your goodwill. Sending warm regards & best wishes for your continued success. And my best wishes for a bright future ahead.

Thanking you.

In fact, the struggle of children to learn in the field of education is different. And parents dream that their children should get a good number in a government college, but this year, the NEET result has gone up a lot, so middle-class families cannot afford to take admission in private colleges.

But some girls/boys dream of becoming doctors. But in India, this dream cannot be fulfilled due to lack of money. Banayi International Education Consultancy has taken up the task of giving wings to these dreams. Thanks to the mentor Dr. S. B. Shinde Madam, the girl got the opportunity to do MBBS in a place like Russia. That too at a reasonable cost.

Thank you.

Mr. Sandip More Loni
(A-Nagar)

Mr. Bhaidas Wagh
Shirpur (Dhule)

I appreciate the director of Banayi International Education Consultancy for their excellent co-operation and timely guidance for abroad admission. They not only saved my entire saved money but also helped to take an admission.

They smoothly carried out the entire admission process from registration, invitation letter, Visa process, air ticket booking and everything. now I am fully satisfied by their service.

Thank you madam.

श्री. तुकाराम बंडगर कटफळ
(सांगोला)

माझ्या व माझ्या भावाच्या मुलींना बी.ए.एम.एस. प्रवेश घेण्यासाठी मी अनेक करिअर अडवायझरनां भेटलो पण आम्हाला विश्वास वाटला नाही. आमच्या अपेक्षेप्रमाणे योग्य ते कॉलेज मिळवण्यासाठी जेव्हा आम्ही बनाई इंटरनॅशनल एज्युकेशनल कन्सलटन्सीच्या संचालकांना भेटलो.

तेव्हा त्यांनी सुरुवातीलाच स्पष्ट केले. महाराष्ट्रामध्ये बी.ए.एम.एस. ला प्रवेश मिळू शकतो. त्याची कारणे त्यांनी सांगितली. ती आम्हाला पटली त्यांनी पहिल्या राऊंडपासून प्रत्येक राऊंडला कॉलेज मिळवून दिले. शेवटी तिसऱ्या राऊंडला आमच्या पसंतीचे कॉलेज मिळवून दिले. आज आमच्या मुली त्यांच्या आवडीच्या व सोयीच्या कॉलेजमध्ये शिकत आहेत. त्यांनी दिलेल्या सेवेबद्दल आम्ही समाधानी आहोत.

धन्यवाद... बनाई इंटरनॅशनल एज्युकेशन कन्सलटन्सी

Considering the 2024 NEET score, it was difficult for her to get admission for BAMS here, so when I inquired in many consultancies for BAMS admission, I found it difficult to get admission for BAMS in India. When approached Banayi International Education Consultancy I was told that she would get admission for MBBS in Russia at the cost of BAMS in India, I thought about it and when I asked the girl about it, she also agreed.

She took admission from Baniya International Education Consultancy and now learns at Kuban State Medical University. The education is throughout English medium, so it is easy for children to understand. When I inquired about the education she told that there is very good education and the college fee and hostel fee are very low, we are feeling that it was right decision to send her abroad for MBBS.

Mr. Sunil Patil
Kavathemahankal (Sangli)

Mr. Rajaram Patil
Kolhapur

I came to know about Banayi International Education Consultancy from Google. I contacted them. I followed the guidance they gave me from the beginning. They fulfilled all the promises they made regarding the admission process, which strengthened my trust in them.

Overall, I am completely satisfied with the admission process and the university I chose.

I got information about Banayi International Education Consultancy from our one of friends. When I met, I realized that they do medical admissions in India as well as abroad.

I them about our desired college, budget and all other things after listening to us, he promised to get us the best college in UP. My entire family is grateful for the cooperation and guidance in this admission process.

कल्याण (मुंबई)

आम्ही परदेशात एडमिशन घेण्याच्या विचारात होतो. घरांमध्ये तशी चर्चा चालू होती. मग त्यावेळेला बनाई इंटरनॅशनल एज्युकेशन कन्सल्टन्सी बाबत मुलांनी आम्हाला सांगितले.

आम्ही त्यांना भेटलो त्यांनी एवढ्या सहजपणे एडमिशन प्रक्रिया पूर्ण करून दिली व एडमिशन च्या अगोदर नंतर त्यांचे जे सहकार्य लाभले त्याबद्दल मी आभारी आहे

It is the dream of every student to pursue a career in the medical field with 'B' Group; But in this deadly competition sometimes the mind was bitter.. because my son didn't get admission for MBBS in India, but through BANAYI INTERNATIONAL EDUCATION CONSULTANCY my son's dream of MBBS came true.

The Director of 'Banayi' Mrs. S. B. Shinde madam gave admission to my son Varad in government Medical College in Russia. Each step during the admission process is well explained. Also we are assured they will solve all possible problems till his complete education.
